Experience Reliability Innovation

That's the simple philosophy of Testa Corp. We're a full-service demolition and site development firm with a solid reputation for safety and professionalism.

Welcome to Testa Corp, a full-service contractor specializing demolition and site development, located in Lynnfield, Massachusetts, USA just outside of the City of Boston. At Testa, we provide services that implement safety minded, cost effective and successful completion.

Featured Project
Our current featured project, part of Boston's historic Big Dig project, is the demolition and removal of the entire Central Artery downtown.

A personal approach tailored for your family's needs

Design

30 years of homebuilding experience and know-how

Experience

At Quequechan Builders, we have a simple philosophy regarding our customers: make them happy. Whether a first time homebuyer or family looking for room to grow, we are committed to making it an easy experience to buy a house. It's your dream, and we can help you make it happen.

The principals of Quequechan are homebuilders with more than 30 years of real estate experience on single family homes, residential communities, subdivisions, townhouses, condominiums and more in Southern Massachusetts and throughout the state. We enjoy what we do and see every day.
